

Before Construction

After Construction

## **Monroe Street Improvements** **Village of Peoria Heights**

### **Project Scope:**

Monroe Street is an urban collector in the Village of Peoria Heights and links War Memorial Drive (U.S. 150) to Lake Street. Improvements to this road were performed over a two year period. Curb & Gutter, Sidewalk, and Driveways were replaced in 2007, and the entire street was milled and overlaid in 2008, completing the improvement. The existing roadway was in poor condition and suffered the effects of poor drainage. Hermann & Associates prepared the contract plans and performed construction phase services during both phases of the project.

### **Project Elements:**

- Topographic surveys
- Curb/Sidewalk/Driveway/Inlet replacement
- Bituminous Mill & Resurface
- Construction Phase Services

### **Project Financials:**

- Funding Source: Motor Fuel Tax
- Construction Cost (Phase I): \$150,000
- Construction Cost (Phase II): \$210,000

### **Client:**

Village of Peoria Heights, Illinois  
Mayor Mark Allen  
4901 North Prospect Road  
Peoria Heights, IL 61614
